

irr::IEventReceiver

```
classDiagram
    class EventReceiver
    class irr_IEventReceiver["irr::IEventReceiver"]
    EventReceiver --|> irr_IEventReceiver
```

The diagram illustrates a class hierarchy. At the bottom is a gray box labeled 'EventReceiver'. A blue arrow points upwards from this box to a white box at the top labeled 'irr::IEventReceiver'. This indicates that 'EventReceiver' inherits from or implements 'irr::IEventReceiver'.
